AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Previously presented) A method for pre-screening customer data of a customer by a selling entity at a point of sale location, comprising: receiving said customer data at a point of sale system; and during the course of a single check out process at said point of sale location:

transmitting said customer data to a server;
searching a database for said customer data;
performing a credit worthiness check to determine a credit pre-approval of said customer, said performing is done using a result of said searching and without knowledge of and uninitiated by said customer;
providing said customer with an invitation to open a charge account;
opening said charge account upon acceptance of said invitation by said customer; and
selectively executing a charge purchase during said check out process at said point of sale system using said opened charge account.

2.(Original) The method of claim 1, further comprising:
holding said invitation open for a predetermined period of time; and
providing said customer with information on how to access said invitation at a future date.

3.(Previously presented) The method of claim 1, wherein said customer data includes at least one of said customer's:
name;

Application Serial No.: 09/682,787
Response to September 21, 2005 Final Office Action

address;
telephone number;
social security number;
photo identification card; and
membership card relating to said selling entity.

4. (Previously presented) The method of claim 1, further comprising determining whether a membership status of said customer is active or inactive; wherein further said credit worthiness check is performed on customer data with an active status.

5. (Previously presented) The method of claim 1, further comprising determining whether said customer has a current charge account with said selling entity.

6. (Original) The method of claim 1 wherein said credit worthiness check is performed by a credit bureau.

7. (Original) The method of claim 1, wherein said credit worthiness check is performed by a credit issuer.

8. (Original) The method of claim 1 wherein said credit worthiness check is a full bureau check.

9. (Original) The method of claim 1 wherein said credit worthiness check is a partial bureau check.

10. (Previously presented) The method of claim 1 wherein said performing a credit worthiness check comprises determining at least one of a credit account limit, an annual percentage rate, and an account type, for customers who have met specified criteria for said credit pre-approval determination.

transmitting said customer data to a server;
searching a database for said customer data;
performing a credit worthiness check to determine a credit pre-approval of said customer, said performing is done using a result of said searching and without knowledge of and uninitiated by said customer;
providing said customer with an invitation to open a charge account;
opening said charge account, upon acceptance of said invitation by said customer; and
selectively executing a charge purchase during said check out process at said point of sale system.

18. (Original) The storage medium of claim 17, further comprising:
holding said invitation open for a predetermined period of time; and
providing said customer with information on how to access said invitation at a future date.

19. (Original) The storage medium of claim 17, wherein said customer data includes at least one of said customer's:
name;
address;
telephone number;
social security number;
photo identification card; and
membership card relating to said selling entity.

20. (Previously presented) The storage medium of claim 17, further comprising determining whether a membership status of said customer is active or inactive; wherein further said credit worthiness check is performed on customer data with an active status.

future date includes printing said information on a receipt at said point of sale system.

30. (Previously presented) The storage medium of claim 17, wherein data related to a declination of said invitation is transmitted to said server and a customer record relating to said data is updated.

31. (Previously presented) The storage medium of claim 17, further comprising providing said customer with a charge card.

32. (Previously presented) The storage medium of claim 17, further comprising performing a fraud check, said fraud check including verifying said customer's identity.

33. (Previously presented) A system for pre-screening customer data of a customer by a selling entity at a point of sale location, comprising:
at least one point of sale system coupled to a communications link;
a server coupled to said at least one point of sale system via said communications link;
a data storage device in communication with said server; and
a link to a credit information server;
wherein, without knowledge of and uninitiated by said customer, said customer data is processed and a credit pre-approval determination is made prior to said customer selecting a payment method.

34. (Previously presented) The system of claim 33, wherein said point of sale system:
receives said customer data;
transmits said customer data to said server;
processes check out activities;
receives credit pre-approval determination information from said server;

Application Serial No.: 09/682,787
Response to September 21, 2005 Final Office Action

prints out data related to said credit pre-approval determination information;
and
in response to a consent of a pre-approved customer, generates an
account number; and
selectively charges a purchase of merchandise selected by said customer.

35. (Previously presented) The system of claim 33, wherein said
server:
accesses a customer record relating to said pre-approval
determination; and
in the event said customer data stored in said customer records meets
specified criteria, transmits said customer data to said credit information
server for a credit worthiness check.

36. (Original) The system of claim 33, wherein said link to a credit
information server includes a dedicated telephone line.

37. (Original) The system of claim 33, wherein said link to a credit
information server includes an Internet connection.
